<p>FS2Crew was established by an international team of software engineers, graphic artists and airline professionals who came together to channel their knowledge and passion for aviation to develop innovative, ground breaking addons for Microsoft Flight Simulator (2020), Prepar 3D and FSX.

Our original goal was simple: To make your simulated flights more realistic and immersive.</p>
<p>To that end, we pioneered advanced airline crew simulations that enabled users to simulate multi-crew flying in SOP driven airline style environments with the most popular FS aircraft, such as the PMDG 737, Majestic Dash 8 and FS Labs Airbus, among many other notables.

In short, we enabled users to go from flying airliners single pilot style (not realistic) to the way they’re flown in the real-word: Two crew style, complete with the same flows, checklists and procedures used by the Pros.</p>
<p>While developing multi-crew simulations remains FS2Crew’s primary focus, FS2Crew has, however, built upon its success and popularity to expand its reach into other specialized areas of flight simulation, of which our critically acclaimed ground services programs and RAAS are the most prominent.</p>

thank for the browser-based control panel option for PBE!!!
I think it is very useful......
Just a question: is it possible...

<h3><strong>FS2CREW PRODUCT MANAGER AND INSTALLER</strong></h3>
<p><strong>REQUIREMENTS: MSFS
(2020)<br></strong><strong><br></strong><span style="font-size:
```

14.4px;">Our new Product Manager and installer allows you to easily update and install your FS2Crew products for MSFS.</p>
<p>How it works:</p>
<p>When you purchase a new FS2Crew product, you will now download the main FS2Crew product via the Product Manager, not via your on-line account.

The Product Manager will automatically run the setup file for your FS2Crew product.

(Note: You will still need to enter your unique Serial Code when the software runs for the first time. Your Serial Code will be automatically added to your on-line account after purchase. To obtain your serial code, login to your account and select “Orders”.)</p>
<p>For individual FS2Crew software updates, the Product Manager will automatically notify you when new updates are available. Then you just need to click the “Update” button to download and install the update.</p>
